***Parish Center for details (788-7640)!***

FOCCUS, an acronym for Facilitating Open Couple Communication, Understanding, & Study is a pre-marriage inventory for engaged couples facilitated by trained parish leaders and volunteers.

FOCCUS is a parish ministry that helps couples to prepare for the Sacrament of Marriage and

### Why Promote Healthy Marriages?

**Marriage rates are declining worldwide,  
and half of marriages end in divorce.**

It is essential that we do all we can to promote healthy, happy, permanent relationships. Overall, marriage reduces the likelihood of illness, both mental and physical, and speeds recovery from trauma. Parents in a healthy marriage are a protective factor against childhood risky behavior and model kindness and respect for children's relationships. The home is the center for teaching children values.

### Why Provide Pre-Marriage Education?

**Religious, educational and social institutions  
are in a prime position to encourage couples to discuss important topics prior to  
their entry into marriage and increase their chances of staying together.**

Encouraging couples to discuss a broad range of important topics can help them understand the meaning of their union, discover their individual styles, and learn communication and conflict resolution skills that will enhance their lifelong relationship.

### Why Offer Facilitated Sessions?

**FOCCUS facilitation  
encourages couples to talk to each other.**

Unlike a therapist, a facilitator is not expected to fix problems nor offer advice; he or she is a resource to support the relationship and promote healthy communication. Pre-marriage sessions offer a unique opportunity to celebrate a couple's strengths, practice positive communication skills, and explore important areas that may present problems later.
